

Ultrasol® K Plus

Related Crops

Ultrasol® K Plus is the leading source of potassium for all growth stages, its contribution of nitric nitrogen contributes to rapid absorption by the plant. It is chloride free and can be mixed with all water soluble fertilizers. The NK combination makes K plus the most versatile and efficient water soluble K source of its kind.

Technical information

SODIUM (Na):	0.1%
NITROGEN (100% NITRATE):	13.8%
MAGNESIUM (Mg):	<0.11%
CALCIUM (Ca):	<0.05%
BORO (B):	<0.02%
POTASSIUM as K₂O:	46.3%
SULFATE (SO₄):	<0.25%
YODATO (IO₃):	<0.01%
PERCHLORATE (ClO₄):	<0.005%
INSOLUBLES:	<0.05%
Product information:	
LEAD (Pb):	<5 ppm

Technical information

CADMIUM (Cd):

<1 ppm

CHROME (Cr):

<1 ppm

ARSENIC (As):

<1 ppm

MERCURY (Hg):

<0.5 ppm
