

## Ultrasol® SOP

### *Related Crops*

- A fully water-soluble crystalline potassium (K) and sulfur (S) source.
- Applied in fertigation of soil-grown crops during maturation phase, supplying part of the potassium without nitrogen.
- In hydroponic systems Ultrasol® SOP is applied in the first place as sulfate source for crops that require high amounts of sulfur.
- Ultrasol® SOP has an acidic pH, helping to prevent blockage of nozzles and drip lines of irrigation systems.
