

Ultrasol® K Plus Acid – Southeast Asia

Related Crops

- Acidic potassium nitrate : a pH level of 4 achieved by just 0,1% solution, for fertigation and foliar application
- Helps to prevent clogging of fertigation systems and make their cleaning easier, avoiding the use of strong acids
- Ideal for fertigation applications :

=> Irrigation water with high levels of carbonates

=> soil grown crops where pH > 7.

- Ideal for foliar applications :

=> Efficient nutrient uptake (especially in hard leaf crops like

=> Perfect for flower induction, and early flowering stimulation

Technical information

Nitric nitrogen (NO₃-):	13.9% min.
Potassium oxide (K₂O):	45.0% min.
Solubility (g/l at 20°C):	316
Insolubles:	<0.01%
Color:	White
