

## Qrop® complex Top K - Southeast Asia

Related Crops

•Granular chemical compound for outdoor vegetable and fruit production.

•Highest chloride free  $K_2O$  content in the granular compound market

•NPK 12-6-24 + 3CaO + 2MgO + ME.

•High in potassium nitrate with  $N:K_2O$  ratio of 1:2 ratio, optimal for generative stage, fruit set and fruit development

•Balanced  $NO_3/NH4$  ratio of 3:1 for quick nitrogen uptake and synergistic uptake of Ca, K and Mg.

•Fast dissolution in moist soil = fast effect on crop.

•Decreases effect of salinity excess in soil : perfect for saline conditions and coastal areas.

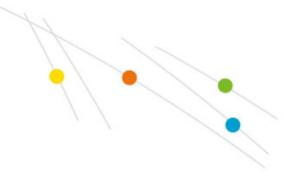

•Top dressing (high in K!) or base dressing (cold spring temperatures).

•Also contains B, Ca, Mg, Mn, S and Zn for optimum yield and quality.

## **Technical information**

Total nitrogen (N):	12%
Nitric nitrogen (N-NO3):	9%
Ammonium nitrogen (N-NH4):	3%
Phosphorus pentoxide (P2O5):	6.2%
Potassium oxide (K2O):	24%

Technical	information
-----------	-------------

Sulphur trioxide (SO3):	10%
Calcium oxide (CaO):	3%
Magnesium oxide (MgO):	2%
Boron (B):	0.01%
Manganese (Mn):	0.04%
Zinc (Zn):	0.05%
