

Ultramol® K Plus - Korea

Related Crops

- Ultramol® K Plus potassium nitrate is derived from a natural and environmental friendly production process, and contains traces of beneficial nutrients.
- Ultramol® K Plus has one of the highest chemical purity on the market, with a formula of 13.7-0-46.3. This purity brings more nutrients per applied unit of Potassium Nitrate.
- Ultramol® K Plus is the most efficient water-soluble K-source for fertigation.
- Ultramol® K Plus is the ideal potassium source to grow outstanding crops with directly available nitrogen in the form of nitrate.
- Free flowing, fine, crystalline powder which quickly dissolves in water. Poor in chloride and mixable with all water-soluble nutrient sources.

Technical information

Nitric nitrogen (NO₃-):	13.7% min.
Potassium oxide (K₂O):	46.3% min.
Solubility (g/l at 20°C):	316
Insolubles:	<0.02%
EC (mS/cm at 25°C):	1.35
Color:	White
