

# Speedfol® Rexene® Zn15 SP

*Related Crops*

•Speedfol® Rexene® Zn15 SP is a product developed for zinc deficient crops through foliar application. Foliar application is recommended when the soil is highly alkaline or when soil application is impossible for other reasons.

•Contains 148 grams zinc per kg of product as Zn-disodium-EDTA derived from ethylenediaminetetraacetic acid.

•pH stability 2-10.

•Solubility 1000 g/l (20°C).

•EDTA-chelation prevents losses through precipitations in the spray tank mix.
