

Speedfol® Cotton SP

Related Crops

- Speedfol® Cotton SP increase net income through:
 - Yield increase:
 - more kg/hectare
 - Quality improvement:
 - boll uniformity at harvest
 - fiber quality (length uniformity, strength)
 - Crop losses reduction:
 - increased fruit retention, less boll drop
 - reduced disease incidence (Stemphylium and Alternaria leaf spot)
- Speedfol® Cotton SP is rich in K, Mg and B, as most critical nutrients for boll formation.

Technical information

N:	15%
P:	2.2%
K:	25.7%
Mg:	1.9%
S:	2.7
Fe EDTA:	0.102%
