

Speedfol® Cotton SP

Related Crops

Speedfol® Cotton SP is a crystalline formulation that quickly dissolves in water. Speedfol® Cotton SP contains nitrate nitrogen, potassium, boron and manganese, four essential elements for improved boll development and lint quality. All nutrients are well-balanced according to the plant's nutritional needs. Speedfol® Cotton SP is 100% water-soluble. Potassium uptake via the leaf is enhanced thanks to the presence of nitrate nitrogen. This is an immediately available N source for maximum absorption via the leaf.

Technical information

Element:	%
Total nitrogen (N):	12
Nitrate nitrogen:	12
Soluble potash (K₂O):	42
Boron (B):	1.0
Manganese (Mn):	0.2
