

## Ultrasol® micro Rexene® FeE13

### *Related Crops*

- Ultrasol® micro Rexene® FeE13 is a stable, water-soluble iron EDTA chelate.
- Developed for usage against iron deficiency and can be applied by foliar feeding or by soil application and in hydroponic systems. Soil application is only recommended when soil pH is below 6,5.
- Typical content of iron (Fe) is 13,3%, fully chelated by EDTA.
- pH stability 1,5-7,5.
- Solubility in water 90 g/l (for practical use).
