

## Ultrasol® K Plus Acid – Europe

### Related Crops

- Contains potassium nitrate, the most quick and completely uptakeable K and N source.
- Combatting soil salinity. Leaving no excess of chloride or sulphate. Antagonistic nitrate-chloride uptake diminishes the uptake of chloride ( $\text{Cl}^-$ ).
- Facilitates the uptake of other essential nutrients like potassium ( $\text{K}^+$ ), calcium ( $\text{Ca}^{++}$ ) and magnesium ( $\text{Mg}^{++}$ ).
- Facilitates mass flow uptake through less salinity build-up.
- Containing the only strong dry acid Ultrasol® Magnum P44®.
- Prevents clogging and cleaning of fertigation systems.
