

Qrop® complex 12-10-18+2MgO

Related Crops

- Granular chemical compound for outdoor vegetable and fruit production.
- NPK 12-10-18 + 3CaO + 2MgO + ME.
- High in potassium nitrate with N:K₂O ratio of 1:1.5 ratio, optimal for generative stage, fruit set and fruit development
- Balanced NO₃/NH₄ ratio for quick nitrogen uptake and synergistic uptake of Ca, K and Mg.
- Fast dissolution in moist soil = fast effect on crop.
- Decreases effect of salinity excess in soil : perfect for saline conditions and coastal areas.
- Top dressing (high in K!) or base dressing (cold spring temperatures).
- Also contains B, Ca, Mg, Mn, S and Zn for optimum yield and quality.

Technical information

Total nitrogen (N):	12%
Nitric nitrogen (N-NO₃):	5.3%
Ammonium nitrogen (N-NH₄):	6.7%
Phosphorus pentoxide (P₂O₅):	10%
Potassium oxide (K₂O):	18%
Magnesium oxide (MgO):	2%

Technical information

Sulphur trioxide (SO₃):

20%
