

Ultrasol® SOP

Related Crops

- A fully water-soluble crystalline potassium (K) and sulphur (S) source.
- Applied in fertigation of soil-grown crops during maturation phase, supplying part of the potassium without nitrogen.
- In hydroponic systems with open drainage, Ultrasol® SOP is applied to raise the EC level (salinity) in the nutrient solution.

Technical information

Potassium oxide (K₂O):	51,5%
Sulphur (S):	18,7%
Solubility (g/l at 20°C):	124
EC (1 g/l at 25°C, in mS/cm):	1,5
