

## Ultrasol®ution K

### Related Crops

**Ultrasol®ution K 3-0-10** is SQM's newest potassium nitrate innovation developed in response to the needs of the liquid fertilizer market, offering a superior, all-in-one source of chloride-free potassium and nitrate-nitrogen.

Its crystal clear solution and compatibility with most other fertilizers and pesticides, makes **Ultrasol®ution K 3-0-10** an ideal source for liquid blending or tank mixing in the field.

### Technical information

#### Ultrasol®ution K 3-0-10 Liquid Potassium Nitrate Characteristics /

#### Typical:

Total of nitrate nitrogen:	3.0% (as 100% NO <sub>3</sub> -)
Potassium expressed as K <sub>2</sub> O:	10% (8.3% K)
Physical appearance:	Clear solution
