

Allganic® Nitrogen Plus 15-0-2 – North America

Related Crops

Allganic® Natural Soil Amendments and Fertilizers Nitrogen Natural, OMRI listed, is available in a dry, flowable prill form that is also 100% water-soluble.

Allganic® Nitrogen Plus 15-0-2, sodium Nitrate is an organic nitrate nitrogen nutrient source, sustainably derived from natural rock deposits found in the Atacama Desert in Chile. The best practice as a grower is to maximize the effect of a small amount by applying it when temperatures are low and soils do not have the ability to produce readily available nitrate-nitrogen.
