

Bulldog® StableN 30-10-10 Landscape Special

Related Crops

High urea formula is excellent for foliar lawn and turf spray programs, as well as a wide variety of row crops, hay and pasture. Superb fertilizer for greens, tees, and fairways. It contains a balanced mixture of all essential plant nutrients including stabilized nitrogen. Stabilized nitrogen controls nitrogen loss due to volatility, denitrification and leaching, ensuring highly efficient performance for maximum returns. Delivers long-lasting and consistent green color, making it ideal for golf course superintendents and other landscape professionals.

Benefits of Bulldog® StableN Landscape Special

- Quick green-up
- Puts you in control of your fertility program
- Exceptional turf color and quality that stands up to stress
- Improves nitrogen efficiency by controlling loss to volatilization, denitrification and leaching
- Environmentally responsible
- Tank-mix compatible

DERIVED FROM:

Urea, Potassium Nitrate, Ammonium Phosphate, Iron EDDHA, Iron EDTA, Manganese EDTA, Copper EDTA, Zinc EDTA, Boric Acid, Sodium Molybdate. F1367.
