

Ultrasol® micro Rexene® XMZ

Related Crops

- Most suitable for soil applications for fruit, vegetables, flowers and arable crops, especially in iron (Fe), manganese (Mn) and zinc (Zn) deficient areas, under alkaline soil and water conditions, as such or in mixes with NPK fertilizers.
- Relatively high in Fe as HBED, Mn and Zn.

Technical information

**Ultrasol® micro Rexene® XMZ - Mixture of micro-nutrients:
Fe, Mn, Zn:**

Iron (Fe), water-soluble, 100% chelated by HBED:	6,0 %
Iron (Fe), water-soluble, 100% chelated by [o-o] HBED (*):	4,8 %
Manganese (Mn), water-soluble, 100% chelated by EDTA:	1,0 %
Zinc (Zn), water-soluble, 100% chelated by EDTA:	0,75 %

**(*) Method EN 13368-2 pH range in which a good stability of
the chelated fraction is granted: 3,5 - 10:**
