

Speedfol® Pulses SP

Related Crops

- Speedfol® Pulses SP is a complete foliar nutrition for Leguminosae: peas and beans like soybean.
- Speedfol® Pulses SP is especially rich in K and Zn:
- plants not deficient in K are less susceptible to Asian Rust disease (*Phakopsora pachyrhizi*)
- bean crops are particularly zinc sensitive
- Increased grower's net income through:
 - yield increase:
 - more kg/hectare
 - more pods per plant
 - more seeds per pod
 - quality improvement
 - crop losses reduction
