

Speedfol® Solanacea SP

Related Crops

- Speedfol® Solanacea SP is a complete foliar nutrition for solanaceae crops : tomato, eggplant, chili and potatoes
- It contains all key nutrients in one formula and covers 30% of micronutrients needs when applied as per recommendation (20 kg/ha) in 4-5 split
- The formula is well balanced with high K and Mg which is required for critical stage in these crops
- It synchronizes growth, flowering and harvesting
- It reduces off-type variation and non-fruit plants
