Minimum Total Sustainability Score for Index Inclusion					77	58	75	64	77	74	

Explanations: Percentile ranking, industry average and industry best scores are presented for comparison within the industry universe of companies assessed for inclusion in any Dow Jones Sustainability Index. Average scores of DJSI members are provided for index members within each industry. All values are on a scale from 0 to 100 (best). The minimum lowest score for inclusion in each index is provided at the bottom, excluding the buffer rule and the error margin. For each row, weights are shown as a percentage of the total weight of 100. Further information on the assessment methodology can be found on www.spglobal.com/esg/csa
